

MCC has finished pouring concrete on the street. There is one section on the jobsite side of tech street that will be coned off for the weekend until the concrete dries. The road will still be open for two-way traffic. The sidewalk will continue to be closed with fencing and detours will take pedestrians around the fencing using the diagonal path and the stairway that leads to the entrance of Posner. Sidewalk to remain closed next week until area is backfilled and sidewalk is restored.
